Multi purpose cartons

Mono Cartons

Offering a comprehensive selection of mono cartons tailored for diverse applications. Specific packaging requirements of sectors such as FMCG, pharmaceuticals, cosmetics, food and various other industries, reflecting our commitment to versatility and client-focused solutions.

Packaging Box

In our daily life, Packaging Boxes are becoming items of common use. It is easy to find these boxes, and any customization can be induced in accordance to the creativity and originality of the customer's product. Along with creativity in the structure of the boxes, Packaging Boxes can also be printed with numerous options of decorating and styling ideas to make these boxes look different from each other and make them speak for themselves in the market. At a glance they seem to be very simple to manufacture but a deep analysis of the process reveals that lot of Steps are involved in bringing them to perfection. Starting from scanning, assembling, printing, die cutting, lamination and pasting all these steps needs 100% perfection to bring in the natural aesthetics of the box its self.

Specialty Cartons

Our specialty cartons offer a diverse range of unique packaging solutions, including Food Trays, Burger Boxes, and Trays tailored for the food and beverage industry, appealing product presentation. Additionally, we provide Wet Strength Multipack Cartons, specifically designed to meet the rigorous demands of the F&B industry, ensuring durability and functionality. These cartons are meticulously engineered to enhance the consumer experience and significantly elevate product value.

Digital Printing

Specialized in mock ups of cartons and labels

Digital printing is the process of printing digital-based images directly onto a variety of media substrates. There is no need for a printing plate, unlike with offset printing. Digital files such as PDFs or desktop publishing files can be sent directly to the digital printing machine to print on paper, photo paper, film, cardstock and other substrates.

Digital printing enables additional advantages, including :

Print-on-demand.

Personalized, variable data printing (VDP).

Cost-effective short runs.

Fast turnarounds.

Substrates:

- ↳ Paper/Board
- ↳ Textured Board
- ↳ Sticker Paper
- ↳ Non Tearable
- ↳ Synthetic digital paper
- ↳ PVC Sheet
